Tushar Garagad

Ab- -out Me.

//Hi! My name is **Tushar Garagad**. I am a photographer, based in Karnataka, India. I have been deeply immersed in photography for the past 8 years. While I specialize in Architectural Photography, I am also involved in diverse creative pursuits. I candidly enjoy capturing anything that piques my interest with my camera lens.

I acquired a deeper professional understanding of this art through a brilliant curriculum from my photography school – **FAD** Institute of Luxury Fashion & Style.

Architectural photography has evoked a keen interest in me and become my forte for the past 3 years. In addition to that, I have gained expertise in various types of photography that include capturing the streets, Indian weddings, editorial fashion, cover shoots, conceptual ideas, nature and landscape, food and product photography.

I am extremely meticulous and attentive; I also have a soft corner for aesthetics and well-organized things – something that can be annoying, but I am proud of this trait.

I am available to be hired pan India. Furthermore, I am open to collaborations with different artists and ideas. Let's make art and pursue excellence together.

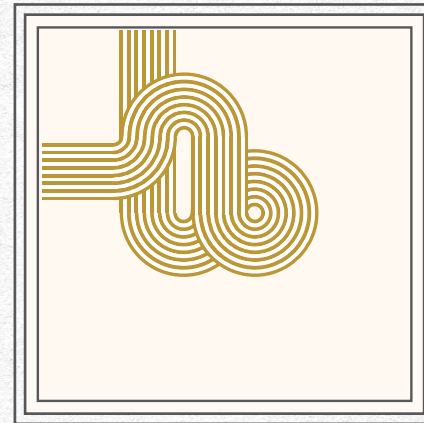

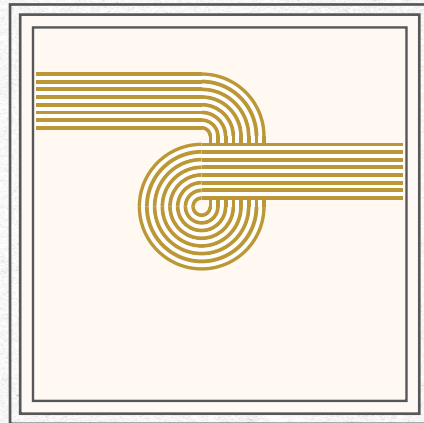

Contents
